

The Asteroids Galaxy Tour Announce US Dates

Denmark's finest, The Asteroids Galaxy Tour, will be coming across the pond to play some U.S. shows in October, including stops in New York, Chicago and Los Angeles for Filter's Culture Collide Festival. The band is touring in support of their latest release *The Golden Age EP*, which features new cuts like "Fantasy Friend Forever," "Runner," "One Giant Freak For Mankind," and a cover of Men Without Hats' "Safety Dance."
